If legal or other requirements mean you must buy any items you did not specifically ask for, we will explain the reason in writing on the statement we provide describing the funeral goods and services you selected. You may keep this price list.

Direct cremation includes basic services of funeral director and staff, transfer from place of death, pre-cremation identification, cremation, utility vehicle and 5 copies of the death certificate. If you want to arrange a direct cremation, you can use an alternative container. Alternative containers encase the body and can be made of materials like fiberboard or composition materials (with or without an outside covering). The container we provide is fiberboard.

FINAL IDENTIFICATION OF THE DECEASED

Cremation is an irreversible process. Where there is human involvement, there will always be the potential for human error. This can apply to hospital, coroner, and mortuary staff. For your peace of mind and ours, we suggest a positive identification of the deceased before cremation. In our Simple Cremation, there is no embalming and only a very limited time that the deceased may be transferred out of refrigeration and identified (refrigeration or embalming are required by state law 24 hours after death –CRS 12-54-111). So that the deceased remains in an essentially refrigerated state, we respectfully request that the identification be for no more than 30 minutes from the time we agree to begin. In the interest of full disclosure while minimizing movement of the deceased, the identification occurs in the container that will shelter the deceased prior to cremation and will be later consumed in the cremation process. We will also dress the deceased in any clothing provided. If you decline the identification viewing, please allow at least 48 hours before the cremation process begins.
